BARACK OBAMA Candy, what Governor Romney said just isnt true. He wanted to take them into bankruptcy without providing them any way to stay open. And we would have lost a million jobs. And that — dont take my word for it, take the executives at GM and Chrysler, some of whom are Republicans, may even support Governor Romney. But theyll tell you his prescription wasnt going to work. And Governor Romneys says hes got a five-point plan? Governor Romney doesnt have a five- point plan. He has a one- point plan. And that plan is to make sure that folks at the top play by a different set of rules. Thats been his philosophy in the private sector, thats been his philosophy as governor, thats been his philosophy as a presidential candidate. You can make a lot of money and pay lower tax rates than somebody who makes a lot less. You can ship jobs overseas and get tax breaks for it. You can invest in a company, bankrupt it, lay off the workers, strip away their pensions, and you still make money. Thats exactly the philosophy that weve seen in place for the last decade. Thats whats been squeezing middle class families. And we have fought back for four years to get out of that mess. The last thing we need to do is to go back to the very same policies that got us there.
