MITT ROMNEY Just going to make a point. Any investments I have over the last eight years have been managed by a blind trust. And I understand they do include investments outside the United States, including in — in Chinese companies. Mr. President, have you looked at your pension? Have you looked at your pension?

BARACK OBAMA Ive got to say...

MITT ROMNEY Mr. President, have you looked at your pension?

BARACK OBAMA You know, I — I dont look at my pension. Its not as big as yours so it doesnt take as long.

MITT ROMNEY Well, let me give you some advice.

BARACK OBAMA I dont check it that often.

MITT ROMNEY Let me give you some advice. Look at your pension. You also have investments in Chinese companies. You also have investments outside the United States. You also have investments through a Caymans trust. (CROSSTALK)

MODERATOR Were way off topic here, Governor Romney. (CROSSTALK)

BARACK OBAMA I thought we were talking about immigration. (CROSSTALK)I do want to make sure that...

MODERATOR If I could have you sit down, Governor Romney. Thank you.

BARACK OBAMA I do want to make sure that — I do want to make sure that we just understand something. Governor Romney says he wasnt referring to Arizona as a model for the nation. His top adviser on immigration is the guy who designed the Arizona law, the entirety of it; not E-Verify, the whole thing. Thats his policy. And its a bad policy. And it wont help us grow. Look, when we think about immigration, we have to understand there are folks all around the world who still see America as the land of promise. And they provide us energy and they provide us innovation and they start companies like Intel and Google. And we want to encourage that. Now, weve got to make sure that we do it in a smart way and a comprehensive way, and we make the legal system better. But when we make this into a divisive political issue, and when we dont have bipartisan support — I can deliver, Governor, a whole bunch of Democrats to get comprehensive immigration reform done, and we cant...

MITT ROMNEY Ill get it done. Ill get it done. First year...

BARACK OBAMA ... we cant — we have not seen Republicans serious about this issue at all. And its time for them to get serious on it.

MODERATOR Mr. President, let me move you on here please. Mr. President, (inaudible) .

BARACK OBAMA This used to be a bipartisan issue. (CROSSTALK)

MODERATOR Dont go away, though — right. Dont go away because I — I want you to talk to Kerry Ladka who wants to switch the topic for us.

BARACK OBAMA ok. Hi, Kerry.

AUDIENCE Good evening, Mr. President.

BARACK OBAMA Im sorry. Whats your name?

AUDIENCE Its Kerry, Kerry Ladka.

BARACK OBAMA Great to see you.

AUDIENCE This question actually comes from a brain trust of my friends at Global Telecom Supply (ph) in Minneola yesterday.

BARACK OBAMA Ah.
