

Set 1: energi, coal, gas, oil, clean, land, technolog, wind

Set 2: health, insur, care, cost, cover, afford, obamacar, premium

Set 3: busi, small, rate, percent, credit, tax, high, lawyer

Set 4: east, israel, middl, leadership, region, friend, peac, cours

---

GEORGE W. BUSH Let me start with how to control the cost of health care; medical liability reform, for starters, which hes opposed. Secondly, allow small businesses to pool together so they can share risk and buy insurance at the same discounts big businesses get to do. Thirdly, spread whats called health savings accounts. Its good for small businesses, good for owners. You own your own account. You can save tax- free. You get a catastrophic plan to help you on it. This is different from saying, “ok, let me incent you to go on the government.” Hes talking about his plan to keep jobs here. You know he calls it an outsourcing to keep — stop outsourcing. Robert Rubin looked at his plan and said it wont work. The best way to keep jobs here in America is, one, have an energy plan. I proposed one to the Congress two years ago, encourages conservation, encourages technology to explore for environmentally friendly ways for coal — to use coal and gas. It encourages the use of renewables like ethanol and biodiesel. Its stuck in the Senate. He and his running- mate didnt show up to vote when they could have got it going in the Senate. Less regulations if we want jobs here; legal reform if we want jobs here; and weve got to keep taxes low. Now, he says hes only going to tax the rich. Do you realize, 900, 000 small businesses will be taxed under his plan because most small businesses are Subchapter S corps or limited partnerships, and they pay tax at the individual income tax level. And so when youre running up the taxes like that, youre taxing job creators, and thats not how you keep jobs here.
